Get hands-on and grow your future with this practical course in horticulture. You'll develop real-world skills in plant care, landscaping and maintaining outdoor environments, while working with tools, machinery and sustainable practices used across the industry.

This course is perfect for students who enjoy working outdoors and want to explore careers in landscaping, parks and gardens or environmental industries, with strong pathways into apprenticeships and further study.

Course Components:

- **AHCMOM203** – Operate basic machinery and equipment
- **AHCPCM204** – Recognise plants
- **AHCPGD207** – Plant trees and shrubs
- **AHCPMG201** – Treat weeds
- **AHCPMG202** – Treat plant pests, diseases and disorders
- **AHCSOL203** – Assist with soil or growing media sampling and testing
- **AHCWHS202** – Participate in workplace health and safety processes
- **AHCWRK211** – Participate in environmentally sustainable work practices
- **AHCMOM204** – Undertake operational maintenance of machinery
- **AHCNSY205** - Pot up plants
- **AHCPGD209** – Prune shrubs and small trees
- **AHCWRK213** - Participate in workplace communications
- **AHCLSC206** – Assist with landscape construction work
- **RIISAM203E** - Use hand and power tools
- **RIISAM204E** - Operate small plant and equipment

Please note: Minimum student numbers are required for a course to proceed.
