1 year – 80 hours Structured Workplace Learning in Building & Construction

This course provides an introduction to the construction industry, its culture, occupations, job roles and workplace expectations. The units of competency cover essential work health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials.

Our comprehensive training focuses on general construction skills & workplace preparation. Students will enjoy applying their skills and knowledge to practical construction projects and on completion of the course, students will have the ability to tackle a wide range of on-site duties. These duties will include working safely in the construction industry, planning and organising work, conducting workplace communication, carrying out measurements and calculations, handling construction materials, and many other on site essentials.

This course consists of eight core units and three elective units which include a General Safety Induction course (White Card) (necessity to work on construction sites in Queensland) along with a Basic First Aid certificate. Units of competency are listed below:

- CPCWHS2001 Apply WHS requirements, policies and procedures in the construction industry
- CPCWHS1001 Prepare to work safely in the construction industry
- CPCCOM1013 Plan and organise work
- CPCCVE1011 Undertake a basic construction project
